DA COSTA BUILDING,
68 GRENFELL STREET,
ADELAIDE

BUILDING APPROVALS

SOUTH AUSTRALIA

MARCH 1962

1. Statistics of building approvals have been compiled from (a) particulars listed on returns from local government authorities of permits issued to private persons and bodies for building in areas subject to building control, (b) particulars, furnished on the same returns, of building known to be projected or to have been started in areas beyond such building control but within the general jurisdiction of such authorities, and (c) details of contracts let or expenditure authorized by governmental and semi-governmental authorities shown on returns furnished by these authorities. See also Note (e), Table 5.
2. The statistics relate only to buildings as distinct from the construction of roads, bridges, railways, earth works, water storage, etc.
3. Values shown represent the estimated cost when completed (excluding cost of land) of new buildings and of additions and alterations to existing buildings. Additions of £5,000 and over to existing buildings (other than houses) are regarded as "new" buildings and are included in the figures shown in Table 2.
4. Building is classified as "Private" or "Government" according to ownership, e.g. the majority of homes built by Government housing authorities are classified as "Government" even though some are intended to be sold on completion.
5. For purposes of comparison it should be borne in mind that the volume of building approvals is affected from month to month by the incidence of large projects such as blocks of flats, hospitals, multi-storey office buildings, etc., and also by the administrative arrangements of local government and semi-governmental authorities.
6. During the three months ended March 1962 the number of dwellings approved for private owners totalled 1,767, an increase of 219 on the figure of 1,548 for the previous three months and 617 more than the 1,150 approved during the three months ended March 1961; value of other new buildings approved (Private and Government combined) was £5,415,000, which was £738,000 less than for the previous three months and £2,744,000 less than for the corresponding three months ended March 1961; value of all building approved was £13,021,000, a decrease of £724,000 from the figure for the previous three months and £2,090,000 less than for the three months ended March 1961.
7. The following tables show further details of building approvals for March 1962 compared with details for earlier months.
